Book Collection 2

GitHub Link: https://github.com/ethanmasters/book_collection/tree/test

Screenshots:

1. Test cases with valid and invalid title declaration

```
root@0f068e968bf7:/csce431/book_collection# rspec
..

Finished in 1.26 seconds (files took 8.5 seconds to load)
2 examples, 0 failures
```

2. Test cases of all inputs before coding other inputs

```
Finished in 0.97192 seconds (files took 8.09 seconds to load)
8 examples, 6 failures

Failed examples:

rspec ./spec/system/adding_books_spec.rb:22 # AddingBooks valid author
rspec ./spec/system/adding_books_spec.rb:29 # AddingBooks invalid author
rspec ./spec/system/adding_books_spec.rb:36 # AddingBooks valid price
rspec ./spec/system/adding_books_spec.rb:43 # AddingBooks invalid price
rspec ./spec/system/adding_books_spec.rb:50 # AddingBooks valid date
rspec ./spec/system/adding_books_spec.rb:57 # AddingBooks invalid date
```

3. Test cases after coding all inputs

```
root@0f068e968bf7:/csce431/book_collection# rspec
.......

Finished in 1.5 seconds (files took 7.51 seconds to load)
7 examples, 0 failures
```

   Note: the invalid date test was removed because the drop menu input does not allow for an invalid input

4. All test cases

```
root@0f068e968bf7:/csce431/book_collection# rspec
.......

Finished in 1.5 seconds (files took 7.51 seconds to load)
7 examples, 0 failures
```

   Note: the invalid date test was removed because the drop menu input does not allow for an invalid input
